Eaglenos

Multi-Functional Monitoring Meter

7 in 1 meter,
for personalized health management

Eaglenos Sciences, Inc.

Feature

7 in 1, multi-functional

GLU	LAC	KET	UA	TC
Sample: 0.8 μL Time: 5s	Sample: 0.8 μL Time: 10s	Sample: 0.8 μL Time: 10s	Sample: 1.5 μL Time: 10s	Sample: 1.7 μL Time: 10s

HCT

HB

Wide application range

Parameter

- Glucose
- Lactate
- Uric acid
- β-Ketone
- Total cholesterol
- Hemoglobin
- Hematocrit

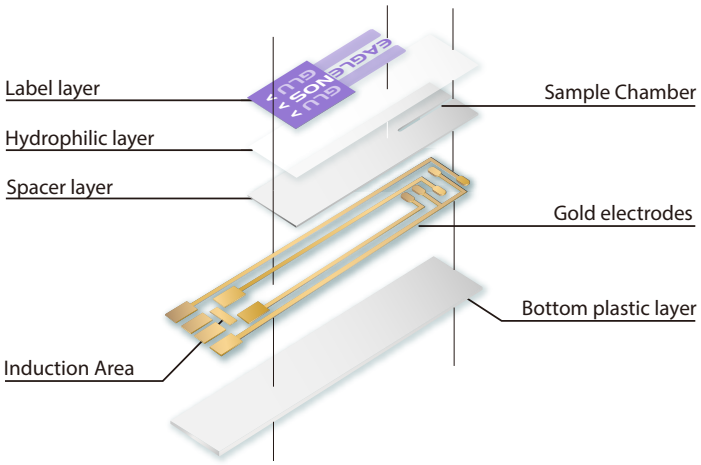
Related diseases

- Diabetes and complications
- Hypertension
- Hyperlipidemia
- Renal injury
- Hyperuricemia
- Coronary heart disease

Stay informed, stay healthy

Bluetooth and mobile APP

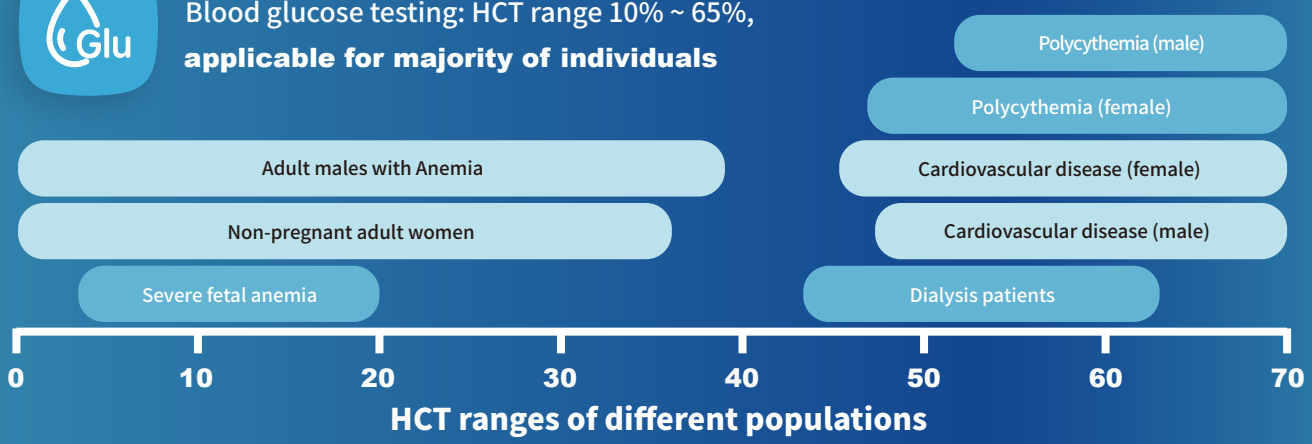
7-Gold-Electrode technology



- FAD-GDH technology to avoid blood oxygen interference
- Enzymatic biosensor with high selectivity
- Anti-interference enzyme chemistry design to prevent ascorbic acid interference
- Sophisticated temperature compensation to ensure accuracy and consistency
- Gold electrode, excellent sensitivity, conductivity and stability
- Auto moisture-detection for damaged strip

Ultra-wide HCT range

Blood glucose testing: HCT range 10% ~ 65%,
applicable for majority of individuals



Powerful partner for healthy life

Smart identification
Meter identifies 5 types strips automatic

Smart coding
Smart coding using code chip, easy to use

Large storage
Up to 7000 tests

Friendly design
High value and low value reminder
Voice broadcast for test result

Smart reminder
Reminder when strips is inserted at right position

Convenient to use
Touch display, easy to use
